**How to Complete and Submit Assignments**

Written submissions are due by 8:00 pm of the date due. Anything received after that is considered late.

- I will not accept assignments submitted more than one week late and late submission must be approved due to a serious sickness or death in the family.
- I will accept no assignments after the last day of the course.

There are no exceptions to submitting late work based on technical problems (such as computer failures, loss of Internet or email, etc.), so please plan alternatives ahead of due dates, e.g., back up all your work, identify another computer you might use to submit assignments if you primary workstation crashes, and delete unnecessary items from your Pirate Mail box regularly so that you can send and receive mail, etc. It is important that you do not let your Pirate Mail exceed the storage limit. Please make sure that you backup your work. Once you submit your assignments to Canvas, check to be sure that you can see and access your work and that it is the correct document. When using technology tools be sure that you change the settings from private to public.

If you need an extended deadline, due to an emergency, contact me in advance or as soon as an issue arises; I will be as flexible as I can be. Do NOT wait until the end of the semester to contact me regarding late work excuses. Completely skipping an assignment is not acceptable in graduate school. To receive an A in this course requires completing every assignment by the due date.

If your artifact is not submitted in Canvas under Assignments and your artifact and reflection are not posted in TaskStream by the due date your course grade will be reduced by one letter.

Submit all assignments using Microsoft Office Word Document in a 12-point font in Times New Roman for readability, double-space format unless otherwise noted. References, charts, tables, etc. within an assignment or that accompany assignment can be single-spaced, but still need to use a 12 point font. All resources consulted for an assignment should be cited in text and provided at the end of the written assignment as “References” actually used (quoted, noted, or used as an example, etc.) using APA style. Consult the specific assignment instructions, to post the assignment to a discussion board.

All assignments should be submitted electronically to Canvas via the assignment link. I do not accept work submitted via email. Power outages, technology glitches, and computer crashes are not acceptable excuses for late submissions. Under no circumstances will you be excused from
submitting work on time because you did not have access to a computer and/or the web for an extended period of time. Once you submit your work to Canvas, be sure to check to see if your document/posting did attach or is visible and that the document is the correct one.

When you submit an assignment please begin with a title page including your last name, first name, course number, assignment number and name.

Like most of the MLS program, this is a writing-intensive course. For students who recognize that writing may be a barrier to their success, I highly recommend the University Writing Center’s Online Writing Lab. Lab personnel will review papers submitted online and return them with diagnostic suggestions for improvement. Complete information on how to submit is available at: https://writing.ecu.edu/uwc/
