

Tailored for educational leaders and lead teachers committed to launching and advancing dual language/immersion programs.

Hear from a DL/I Certificate Completer

The program provided a well-rounded examination of the key components of quality dual language immersion programs, key authors and researchers, as well as relevant resources. Assignments could be adapted to our professional area of need and interest.

Hear from a DL/I Network Member

I joined a network of leaders that I can consult and share ideas with. My courses applied to specialist degree in dual language administration.
